Course Description
This Thai Language course has been designed to help students develop language skills and acquire cultural knowledge so that students can be confident in social situations while living in Thailand. Instruction includes an emphasis on listening and speaking, the use of only the target language, the use of visuals to illustrate meaning, and the use of games and activities for additional practice. However, the basic Thai consonants and vowels will be introduced to facilitate pronunciation and language acquisition. The course content consists of two aspects. They are the basics of Thai language for everyday use and the issue-specific language for community stays. Students will learn basic Thai vocabulary and structures through classes focusing on conversation with the use of intensive oral instruction. Within the context of everyday life experiences, students practice dialogue and engage in interactive homework assignments, as well as games and activities. When possible, teachers will also use local communities as the medium for language practice. On the other hand, students will learn different vocabulary in accordance with the issues examined in the core course and practice language they will use during community stays. It will help students understand more vocabulary and gain grammatical knowledge in order to increase their communicative competence through field work in various communities. The aim of this course is to help students build their confidence in living in Thailand and in using the issues that the program looks at as tools for them to interact with villagers and understand their ways of life and health situations while staying in various communities.

Learning Objectives
By completing this course, students will:
- Understand, make basic requests, and meet daily needs by communicating in Thai
- Be able to describe, narrate, and ask/answer questions in Thai about a variety of topics related to family, daily activities, eating, and traveling
- Feel comfortable using Thai language in any setting
- Learn and use the 'Issue-Based' language as a tool to discuss with and understand local villagers’ ways of life, as well as health situations

Course Prerequisites

Course Requirements

Assignments

The components of outside work are homework, assignments, and structured activities.

Oral Presentation Assignment – In order to promote students’ speaking fluency, students are assigned 3 oral assignments connected to their homestay unit by talking under the given topics for example “my Thai host family from Agriculture Unit” or “My Favourite Day in Laos”. The objective is to increase self-confidence, relaxation, enjoyment, and improvement in speaking Thai.

As part of the Thai language course, we provide “Thai Fun Activity” sessions where students have fun while using the language through various activities. You will enjoy these fun activities with your Thai instructors and other people that work with the program.

As a supplement to classroom language instruction, peer tutors are provided for the linguistic needs of each individual, including listening, speaking, pronunciation, tones, grammar, reading, writing, vocabulary expansion, etc. These mandatory, one-on-one language tutorials provide extra conversational practice and help with homework assignments. Students and tutors meet for eight sessions of structured practice for an average of 1 hour per session. If you have any problems working with your assigned peer tutors, or you would like optional, extra peer tutor hours, please contact the instructor.

Quiz I & Quiz II

Quiz I

Thai quiz is performed in a form one-on-one teacher and student responding to series of questions. The questions include different syntactical/grammatical structures of Thai language learned in class. The teacher reads each sentence aloud for the students to respond which will be recorded in the sound recorder for scoring.
