Course Description

The city is full of paths that end and begin again, a labyrinth whose doors of entrance and exit we do not know. The world around us moves so fast that it blurs our vision and moves us through an invisible city, a world that can be revealed through a photographic lens. A camera lets us rediscover the reality we live in, forces us to stop and look, and above all makes us consider what could be transferred to the two-dimensional world of photography. Seville, as a starting point, takes us deep into its neighborhoods, specifically the historic center, the most extensive in Spain and one of the largest in Europe, covering nearly 4 square kilometers limited in part by the natural border of the Guadalquivir River. This is a large area, extremely rich in cultural and historical heritage, that includes the neighborhoods El Arenal, Encarnación-Regina, Alifáfia, San Bartolomé, San Lorenzo, San Gil, Museo, Santa Catalina, Santa Cruz, Feria, San Julián, San Vicente; all of which will help the students develop their photographic projects, in close contact with its inhabitants. Students will photographically cover small territories to articulate the ways of life and interaction with the environment and will develop a visual project according to their concerns and needs. This project will be created from within, where the gaze redisCOVERs and redefines itself.

Learning Objectives

By completing this course, students will:

- Integrate the various techniques and content related to photography with the vision of the city as a human landscape.
- Produce images that can be used to document and create a visual map of the different neighborhoods of the Andalusian capital.
- Examine the impact that modern means of production impose on a historical city, with an emphasis on today’s mass tourism.

Course Prerequisites

This course is open to all students interested in visual culture and story-telling in a human environment, urban or otherwise. Basic photography skills will be required, and for this reason, the preference is indicated for Communication students. This preference, however, does not exclude students from other fields who possess such knowledge or are willing to explore and learn. 4 semesters of college-level Spanish (or equivalent). Students need to have a GPA of at least 2.5.

Methods of Instruction

This course will be given through PowerPoint presentations, and projections of images and documentaries, visits to Photographic workshops and galleries, and in class discussions.

Linguistic Resource Center

Students of this course do not need to use the Center.

Assessment and Final Grade

1. Evaluation and introductory exercises, six exercises  
   20%
2. Photographic project about trash  
   10%
3. Final-individual project  
   40%
Course Requirements

Evaluation and introductory exercises, six exercises

Evaluation of the five exterior photographic exercises on the city and its citizens we will use postcards about the city, mirrors, polaroid, shadow games, exterior portraits to take pictures on “metaimage”.

Photographic project about trash

Evaluation of the project on waste, plastics and pollution, on final copies on paper of the students, where a creative look will be valued

Final-individual project

Evaluation of the final personal project on the theme chosen by the student, where the evolutionary process of each photographic project and its final set image / text / caption will be evaluated. This evaluation will be published and in class, students will participate with questions about the projects presented

Participation

Evaluation of the participation in an active and productive way in class and in the exterior exits

Attendance

Students are not allowed to miss class for unjustified reasons. For each unexcused absence, the participation portion of the grade will be lowered. Hence, it will be very difficult to receive a 100 in the class. Please keep this in mind. If a student misses class twice without a valid excuse (a note from a physician in the event of an illness), then the professor will automatically lower the final grade by 5 points (on a 100-point scale) for each class missed thereafter. Students with 6 or more absences will fail the course.

Students should arrive to class on time. Arriving more than 15 minutes late for a class will count as an unexcused absence. Please note that an excused absence is one that is accompanied by a doctor’s note: signed stamped and dated. Travelling and/or travel delays are not considered valid reasons for missing class.

*NNotes from a physician will only be valid and admitted by the Program Manager if the doctor confirms that the visit could not have been arranged at another time, or that the student was too ill to attend class that day.

Academic Honesty

Students are expected to act in accordance with their university and CIEE’s standards of conduct concerning plagiarism and academic dishonesty. Use of online translators for work in Spanish will result in an automatic failure.

N.B. Course schedule is subject to change due to study tours, excursions, and local holidays. Final schedules will be included in the final syllabus provided to students on site.
